11.

THE MORNING'S NEWS

The Times

ASSOCIATED PRESS REPORTS BRIEFED.

BY TELEGRAPH: Mr. Estee will
contest the election on the ground of
fraud and trickery in San Francisco;
the official returns from three coun-
ties received yesterday; Budd's plu-
rality eleven hundred and fifty—Ja-
pan has not yet replied to the offer
of this country to negotiate, but it is
claimed China has made no definite
propositions; the Cleveland adminis-
tration to be questioned as to its atti-
tude on the Monroe doctrine—Jim
Hall fails to knock out Billy Woods
and Henry Baker in one night as he
promised to do—A Russian count
who has been doing farm work in
California shakes off his exile and
goes back to his native land—The
Naval Architects' Association discuss
the American navy and the policy of
advancement—Forest fires wipe out
two Colorado mining camps and are
threatening others.

Dispatches were also received from
Vancouver, B. C.; San Francisco,
New York, Chicago, Omaha, Denver,
Cleveland, O.; Washington, Paris,
London, Pawtucket, R. I., and other
places.

THE CITY.
The trial of John Craig, the triple
murderer, continued before Judge
Smith; strong evidence for the pro-
secution—Another session of the City
Council on charter revision; final ac-
tion taken—Democrats moving to
have the name of Anthony Schwamm
removed from the ticket as a candi-
date for City Clerk—Progress of the
official canvass of the county vote—
Arrival of Doctor, the embossing
drummer, from the East.

SOUTHERN CALIFORNIA.
Crimes charged against Tom Sal-
ter, the San Bernardino poisoner; be-
lieved to have committed at least
two murders—The official canvass of
Ventura county—The latest from the
wrecked steamer Crown of England.

WEATHER INDICATIONS.
For Southern California: Prob-
ably occasional light rain with snow
on the mountains; cooler in the in-
terior with frosts Saturday morning;
westerly winds along the coast and
northerly in the interior.
The following are the forecasts for
the following week: The forecast for
Chicago, Ill., for the week ending
November 21, is: "A cold wave will
prevail in Colorado, Kansas and Nebraska."

MUSKRATS DID IT.

A Mill-race Let Loose, Demolishing a
Big Factory.

Associated Press Local Service.
ELKHART, (Ind.) Nov. 15.—This city
was thrown into great excitement by the
complete and peculiar destruction of the
large factory of the Elkhart Knitting Co.,
situated on the St. Joseph hydraulic sys-
tem in this place, and causing a loss of
many thousands of dollars to the factory.
The cause of the destruction was
the great loss to the hydraulic
company by the washing out of the em-
bankment.

Unknown to anyone, for months past a
large number of muskrats have been bur-
rowing about the headgates of the race
on which several of the leading hotels
of this city are located. Yesterday their
irregulars had become so great that the em-
bankment about the headgates gave way,
letting an immense head of water into
the race and down upon the mills. It
washed out a long strip of embankment
and then struck the knitting-mill, first
ripping up the large drying department
and throwing it about as though it had
been a feather. Tons of machinery
dropped into the race and remain there.
The main portion of the factory was then
attacked and almost entirely wrecked.
Fully \$100,000 worth of damage was done
to it, besides the loss of a large quantity
of manufactured stock which was buried
with the building into the flood and car-
ried out into the river, where fine and or-
dinary business by the dozen pair was
fished out by men and boys in boats, and
women and children who stood along the
shores with long poles.

It was only by the hardest exertions
that the Harvest Queen Flouring Mills
and the band instrument factory escaped a
similar experience, and as it was, they
suffered great damage. An examination
of the race reveals that vast numbers of
muskrats have left the river since cold weather
began and have thoroughly honeycombed
the embankment in their efforts to make
winter quarters. So completely have they
done their work that the whole system
of hydraulics, the most extensive in this
part of the country, is threatened, and
a large force of men is engaged in repair-
ing the damage as rapidly as possible, be-
fore winter closes in and renders the work
impossible.

Means are also being devised for the
wholesale destruction of the animals
which have become a source of terror to
the two hydraulic companies of this place.
Already hundreds of them have been po-
isoned, while a great many have been
caught in ingeniously contrived traps.

CREMATED REMAINS.

Bodies of William Sturges and Ig-
nace Martine Incinerated.

Associated Press Local Service.
NEWTON (N. Y.) Nov. 15.—The body of
William Sturges, the Chicago millionaire,
was incinerated at the Fresh Pond Cem-
etery. The body was placed in a plain,
dark-colored casket. The services at the
crematory were the most impressive ever
held there.

The body of Ignace Martine, the well-
known member of the Stock Exchange,
who committed suicide last Sunday, was
also incinerated.

Bad for Cattle.

OMAHA (Nebr.) Nov. 15.—A general
snowstorm of great severity prevails
throughout Northwestern Nebraska. Re-
ports from that section declare that it will
be a blizzard before morning. Stockmen
think that cattle are in imminent danger,
since the weather is approaching zero.

COLD COMFORT

Those Negotiations at
Washington.

Japan Has not Received any
Propositions.

China Must Make a Specific Offer Be-
fore the Mikado Will
Listen.

Great Britain's Offer of Intervention
Regarded with Disfavor—A Ko-
rean Constitution—Hostile
Movements.

Associated Press Local Service.
WASHINGTON, Nov. 15.—The Chinese
Minister, accompanied by two of his suite,
called on Secretary Gresham today. In
view of the pendency of the negotiations
for United States mediation between China
and Japan the call occasioned much com-
ment, although the officials and diplomats
say it was without significance. Ambassa-
dor Patenotre of France met the Minister
in the diplomatic room, and had a long
and somewhat animated talk with him.

There is a growing belief that while
Japan has not declined to accept the sug-
gestions of this government to mediate, it
has let the fact be known that Japan has
not received any direct proposition, nor
has the "Mikado" country offered any in-
demnities. This in effect is a negative an-
swer, unless China makes her offer as
specific as Japan expects.

SPRINGING THE MONROE DOCTRINE
ON "EM."

WASHINGTON, Nov. 15.—Representa-
tive Bellamy Storer of the Committee
on Foreign Affairs of the House is today
presenting to Congress when it re-assembles
a resolution of inquiry as to the action of
Secretary Gresham in suggesting to China
that this country will act as mediator in
the settlement of the present war.

The resolutions when drawn will ask
for information as to what, if any, steps
have been taken by the State Department
to secure the settlement of the present war.
Storer says he has no desire
to embarrass the executive branch in any
foreign policy, but he wishes to know
what steps have been taken to secure the
settlement of the present war.

GREAT BRITAIN IN DISFAVOR.
YOKOHAMA, Nov. 15.—News-papers here
recent Great Britain's offer of interven-
tion, which they regard as entirely a
movement in behalf of China. They add
that Great Britain's influence in the East
is in jeopardy by this offer, which wounds
Japanese feeling.

The newspapers say that the defenses of
Port Arthur are reported stronger on the
land-side than on the sea-front. Fully a
hundred guns are said to be in position.
The Japanese expect that if the Chinese
make any defense the assault will be
bloody.

A KOREAN CONSTITUTION.

CHONGJU, Nov. 15.—Korean govern-
ment officials who have a pro-Japanese
tendency are preparing a constitution which
will be promulgated in 1895.

Numbers of Korean soldiers sent against
the Tong-Hak, have joined the rebels.
The country south of Seoul is in a state
of great turmoil.

THE CHINESE FORCES.

TIEN-TSIN, Nov. 15.—The whereabouts
of the Chinese army defeated at Kin-
Lien-Ching, is unknown here. Col. von
Hennekin has been given supreme com-
mand of the Chinese navy.

WILL BE WITH DENBY.

WASHINGTON, Nov. 15.—The President
has appointed Edwin C. Lowery of Ohio
second secretary of legation at Peking,
China.

CHINESE CLAIMS.

TIEN-TSIN, Nov. 15.—Chinese reports
from Port Arthur say that the Japanese
have not yet captured the city. Two
forts there are still holding out, and in
spite of desperate fighting the assaults
of the enemy have been repulsed. From the
same source it is stated that the Japanese
are far from Port Arthur, whose defenses
have been greatly strengthened, and it is
likely the place will offer a determined
resistance.

It is also reported that a portion of Gen.
Sung's army has recaptured Kin-Chow, and
that the Japanese have been driven out of
Monten on the road to Peking by Chinese
who afterwards captured the city.

AN OFFICER OF THE CHINESE CUS-
TOMS INTERVIEWED.

SAN FRANCISCO, Nov. 15.—Einar
Bjornson of Shanghai, China, is in San
Francisco, en route to Rome, Italy, where
his father, the Norwegian novelist, is.
Bjornson is an officer of the Chinese cus-
toms service, and has for eight years
been detailed in that duty to the various
Chinese ports, as well as to those of Japan
and Korea. His acquaintance is extensive
in official circles of China and among the
literati.

Bjornson explains the present tightness
of the Chinese government as being due
to the desire of the nation to celebrate the
birthday of the Emperor, which was on
November 10 last. For two years the
government had been gathering funds for
the occasion. All of the provincial offi-
cials had been instructed to prepare gifts
and collect sums of money to be taken to
Peking as offerings to the Emperor.

A disaster overtook the Chinese forces in
Korea, the whole purpose of the govern-
ment changed to the defensive, and the
paramount wish was to keep Peking safe
from invasion and capture. It was decided
that the birthday ceremonies and celebra-
tions should be confined to Peking and all
the soldiers of the empire were massed to
preserve the capital.

"As to operations in the near future,"
said Bjornson, "I know that the Chinese
government strongly desires to avoid bu-
milation in negotiating with Japan, and
if the national pride is too severely af-
fected, I do not think the war will end
very soon. China cares little for Korea,
but the Koreans during 3000 years have

drawn all their civilization, official coun-
sels, literature and art from China, and
look upon the nation almost as a mother
country. China is willing that Korea
should become independent and be self-
governed, and I think that the Chinese
government should be willing to pay an
indemnity to Japan, but the opinion is con-
fidential.

The war has made no impression upon
the Chinese people. Few of them know
that a war has been in operation, and
most of them care nothing about the mat-
ter. In Japan, the chance of war was
seized upon as a political move, which
might confirm the present Mikado and
his immediate friends of the Estuama,
Chouku and Josa clans, in power. The
other clans of Japan have been clamoring
for a division of power and a share of
official profits. The war has set the pre-
sented government very high in popular re-
gard and makes it likely that the policy
of the past will be continued.

Japan is sending foreigners out of
official positions. It is the intention that
every post shall be filled by a native, and
that the government shall be conducted by
them alone."

WILL COMMAND THE CONCORD.
SAN FRANCISCO, Nov. 15.—Capt. Jo-
seph E. Craig, U.S.N., recently relieved
from the duties of president of the fac-
ulty at Annapolis, sailed for China on the
steamer Belgic today. He will take com-
mand of the U.S.S. Concord, stationed in
China.

CHASING THE JAPS.
LONDON, Nov. 15.—The Times will pub-
lish a dispatch from Tien-Tsin saying that
Gen. Nieh reports that he was attacked
at Ma-Lien-Lung November 11 by the
Japanese troops and succeeded in repulsing
them. The Chinese general adds that the
Japanese made a second attack upon the
position he occupied on November 12, but
it appears that the Japanese were again
repulsed and the Chinese pursued them.
Gen. Fung-Wang, which place Gen. Nieh
expected to reach soon after sending his
report.

The similarity between this reported de-
feat of the Japanese and the defeat which
they are said to have sustained at Motien
on the road to Peking, is apparent, and
probably refers to the same engagement.

COLORADO PROSPERS.

Henry Wolcott Expects Great Things
from the Populists' Defeat.

Associated Press Local Service.
NEW YORK, Nov. 15.—Vice-President
Henry Wolcott of the Colorado Fuel and
Iron Company and a brother of United
States Senator Wolcott, is one of the first
prominent business men of Colorado who
have come East since the election. Re-
garding the defeat of the Populists in his
State he said:

"Now that we have demonstrated that
Colorado is not really controlled by Popu-
lists, in fact that we have buried them
beyond the hope of resurrection, I do not
see why the State should not progress in
the matter of material prosperity as
rapidly as it did before the Populist in-
vasion."

The great value of our re-
sources is shown by the fact that five rail-
roads have reached out from the Missis-
sippi River to do business with us. The
Rocky Mountain, the Atchafalaya, the Rock
Island, the Missouri Pacific and the Burling-
ton. Besides, capital was easily secured
to construct the lines from Colorado to the
Gulf of Mexico. All of these roads and
those who hold their securities are deeply
interested in our welfare and so are the
security-holders of the three roads that
cross this State. For this reason it seems
to me that a greater number of people
have watched our political and business
affairs more closely than those of any
State west of the Mississippi.

"We have lived down the idea that sil-
ver is the mainstay of the State's pros-
perity. We will mine this year 40 per
cent more gold than last year. Owing to
our system of irrigation we have no crop
failures, and the development of agricul-
tural lands by that system is increasing
steadily. It may interest you to know that
last season we shipped out of the State
over \$1,000,000 worth of fruit, although the
fruit-growing industry is in its infancy."

SCIENTIFIC AGRICULTURE.

Annual Election of Officers of the As-
sociated Colleges.

Associated Press Local Service.
WASHINGTON, Nov. 15.—The annual
election of officers of the American Agri-
cultural colleges and experiment stations
was held today at the Agricultural Depart-
ment. President H. E. Alvord, Oklahoma; vice-presi-
dents, A. A. Johnson of Wyoming, A. O.
Holliday of North Carolina, T. B. Comstock
of Arizona, E. B. Craighead of South Car-
olina and O. Clute of Florida; secretary,
treasurer, F. L. Washburn of Rhode Island;
bibliographer, S. W. Johnson of Con-
necticut; Executive Committee, H. H.
Goodell of Massachusetts, H. C. White
of Georgia, M. A. Scoville of Kentucky,
H. B. Armbryst of Pennsylvania.

Assistant Secretary of Agriculture Dab-
ney delivered an address, in which he
reviewed the ways in which the scientific
work of the department had been extended
under the present administration. At the
general session this afternoon, the gen-
eral work in horticulture and botany was
considered by the sections of the conven-
tion.

SINGLE-TAX COLONISTS.

Baldwin County, Ala., the Seat of a
New Experiment.

Associated Press Local Service.
ST. LOUIS, Nov. 15.—A dozen families
have moved to Baldwin county, Alabama,
where they intend to establish a commu-
nity which is to be conducted strictly on
a single-tax idea. All are members of
the Fair Hope Industrial Association,
which was organized and incorporated at
Des Moines, Iowa, last February for the
purpose of illustrating, if possible, the ad-
vantages to be derived from single-tax gov-
ernment.

A number of other families are said to
be on their way by different routes, and
will meet the main party at their destina-
tion, Thursday, which is the day set for
the formal opening of the community.
Fifty-one families are said to be at pre-
sent members of the association and repre-
senting seventeen States, extending as far
west as California and east to Pennsylvania.

A Short Shift.

TAHLEQUAH (I. T.) Nov. 15.—Unless
Chief Harris interposes by pardon, com-
mutation or respite, Bill Levy, a handsome
young Cherokee, will be hanged here to-
morrow, and there seems no good reason
for executive clemency. Levy was con-
victed last July of the murder of Dick
Smith and another Cherokee, and has been
repeated once before.

THE CANVASS.

It Proceeds Slowly but
Surely.

Official Figures of Three
Counties.

Budd Now Has a Plurality of Eleven
Hundred and Fifty Over
His Opponent.

But Thirty-seven Precincts Remain
Which Have Turned in no Fig-
ures at All—News from
Eastern States.

Associated Press Local Service.
SAN FRANCISCO, Nov. 15.—Only three
counties have reported complete official
returns on the vote for Governor today.
Mariposa, Lassen and Santa Clara. The
count now stands: Budd, 110,948; Estee,
109,798. Budd's plurality, 1150.

There are still thirty-seven precincts
and the official canvass in thirteen coun-
ties to hear from.

ESTEE WILL CONTEST.

SAN FRANCISCO, Nov. 15.—The Repub-
lican State Central Committee has been in
secret session for several days past, and
it was given out today that in case Estee
cannot overcome Budd's plurality for the
Governorship that he election would be
carried to the courts on the ground of
fraud.

The committee says that it has good
reason to believe that the great majority
Budd received in this city was due to
trickery and fraud.

IN OTHER STATES.

THE KANSAS CITY REPUBLI-
CANS DISCOVER FRAUDS.

Senator Brice Says Stevenson is the
Democratic Candidate for Presi-
dent—O'Malley Returns to
Stand Trial.

Associated Press Local Service.
KANSAS CITY (Mo.) Nov. 15.—Absolute
and glaring fraud perpetrated on the tally-
sheet used at the election of Governor
O'Malley, and was given a dose of slings-
hot. This was in the saloon of a certain
Sharber at the southeast corner of Illi-
nois and Market streets. Antonio Shar-
bero, the saloon-keeper's son, is charged
with having done this work. He is now in
jail.

O'Malley says that after his row on election
night he went on a spree and went
East, not knowing that he was wanted
here so badly. He knocked around New-
ark, Jersey City and New York until he
heard from friends that there was a hue
and cry after him, and he at once decided
to come back.

Ex-Senator John O'Malley, for
whom the police have been searching
since the night of election, surrendered
himself today. O'Malley is charged with
driving wounded a bartender and a cab-
driver, and was also wanted for alleged
complicity in the murder of Gus Colander,
the judge of election, killed while resist-
ing an attempt to steal a ballot-box.
O'Malley denied that he had anything to
do with the ballot-box theft.

A HORRIBLE AFFAIR.

An Ohio Farmer Hanged, Shot and
Burned by an Unknown.

Associated Press Local Service.
CLEVELAND (O.) Nov. 15.—William
Gleider was murdered near Elyria last
night in his barn, and an attempt was
made to burn the barn after the com-
mission of the deed by the unknown per-
petrator. The cause of the murder is
unknown. Gleider was a well-to-do farmer
and the murder has caused great excite-
ment in the community.

When the body was found the legs and
arms had been burned entirely off. It is
evident that a rope had been strung
around his neck. There was a bullet hole
over the left temple, and three more in
the top of the skull, as though some person
had stood above him, and shot into his
head. Gleider's stepson, who is said to
have a bad reputation, is missing. It is
believed that he knows something about the
murder.

A TERRIBLE STORM.

Many People Killed at Paris—Pro-
vinces Flooded.

Associated Press Local Service.
NEW YORK, Nov. 15.—The World's
Paris dispatch says that the city has been
visited by a terrible storm. Many people
have been killed. Numerous roofs were
blown off. Nearly all the leading Re-
publicans have been killed. The provinces
were flooded. The velocity of the wind was so great
that the aerometers on the Eiffel Tower and St.
Jacques Tower were unable to register it.
Since the heavy storm of Monday, which
caused loss of life in Paris and the prov-
inces, the southwest gale has abated.
No further casualties have been reported.

PRESIDENT MORAES.

The New President of Brazil Assumes
Office.

Associated Press Local Service.
RIO DE JANEIRO, Nov. 15.—Gen.
Prudente Moraes, upon assuming the
Presidency today, issued a manifesto, in
which he says that he recognizes the diffi-
culty of his position, but that he counts
upon the support of all friends of the re-
public to assist him in overcoming them.
He guarantees that respect shall be ob-
served for the liberties of the people.
The manifesto concludes with the state-
ment that peace prevails both at home
and abroad.

A Flooded Town.

LAENIC (Cyprus) Nov. 15.—The sea-
port town Limasol has sustained much
damage through recent floods. Twenty-one
persons were drowned.

Democratic perquisites until December,
1895, unless the House is sooner organized
by the Republicans.
It will be a simple matter to force an
extra session if the Republicans decide that
such a course would be advisable. They
have only to prevent

GRAND—The Nibbles.
EMERALD—Vaudeville.
BURBANK—Count Al Rimal.

THE NEW CHARTER.

Citizens of Los Angeles are to be congratulated on the fact that the amended city charter has at length been agreed upon, and is now ready for adoption by the City Council. The gentlemen who have labored long and earnestly to bring these reforms thus far toward a successful conclusion deserve the thanks of the community.

One of the best features of the new charter is the change which it effects in the date of holding the city election from the fall to the spring, thus removing municipal business as far as possible from the excitement and tumult of State and general elections. This move is so palpably in the interest of good government that the opposition which it developed in some of the official quarters causes surprise.

It is to be regretted that the Council reconsidered the proposition to amalgamate the offices of city engineer and street superintendent. A city engineer, however incompetent he may be, must necessarily have a smattering of technical knowledge, sufficient to prevent him from making gross blunders in street and sewer work. Too often a street superintendent, appointed for political reasons, is entirely ignorant on these subjects, and the result is seen in gross and expensive blunders in many of our large cities. It is to be hoped that the Council will at least see that thoroughly competent men are appointed to this position.

Under the amended charter the offices of mayor, city attorney, treasurer, members of the council and members of the board of education will be elective. The mayor will have the absolute appointment of his clerk, and will appoint, subject to confirmation by the council, all commissions, the board of health and the superintendent of buildings, while the council will appoint the city engineer, city clerk and street superintendent.

This gives the mayor somewhat less power than was contemplated by the Citizens' Committee, but it still leaves him great influence and renders more than ever necessary the selection of a man for the office who has been tried and not found wanting—such a man, for instance, as Henry T. Hazard.

The first election under the new charter is to be held on the first Tuesday after the first Monday in March, 1896, and the officers will take their seats on April 1 of that year. The charter will go into effect immediately after its approval by the Legislature, but all officers will retain their places until the election of their successors in 1896.

MACHINE-RULE WAXING.

The necessity for divorcing municipal governments from partisan control is becoming more and more apparent. The partisan machine is responsible for nine-tenths of the corruption and misgovernment which have disgraced so many of our cities, large and small, within the past generation. The case of Tammany was a conspicuous illustration. Tammany was simply a party machine brought to a high degree of perfection and kept in thorough working order by those who had it in charge. Had it not been for partisanship in municipal government the monstrous crimes of Tammany would have been impossible.

The case of Tammany, though more conspicuous than others of its kind, is only one among many instances of the evil of too intense partisanship in municipal government. Men of progressive ideas are rapidly coming to recognize this evil, its source and its remedy. The trend of progress in better municipal government is distinctly away from partisanship and toward independence of action.

The great principles which control in national politics have but little to do in the government of cities. Municipal government is, or should be, more a matter of business than of politics. It has to do principally with the transaction of the business affairs of the municipality, and these have, or should have, nothing to do with party politics. The chief concern of every citizen should be to use his influence and his vote toward the selection of the very best men for official positions in the city government, irrespective of their political affiliations. The first and vital question should be, is this candidate or that the best man that can be selected for this or that office? Not is he a Republican or a Democrat?

Intense partisanship in municipal politics plays directly into the hands of political bosses, rings and cliques. It strengthens the power of these corrupt influences and paves the way for all sorts of crimes against the people and

against good government. The complete purification of municipal government will come only through the divorce of such government from partisan control.

These facts are rapidly becoming more and more apparent to the better class of citizens, and there is a rapidly growing tendency on the part of such citizens generally, without regard to party, to break away from party ties and act independently in purely local elections. This is an encouraging sign of the times, for it foreshadows the overthrow of boss rule, and of the intolerable domination of rings and cliques. It is an augury of wiser and more honest municipal government, in which the interests of party shall be subordinate to the interests of the people. It is an indication that the time is not hopelessly distant when city governments shall be conducted on business principles, and when the best men shall be selected as the heads of such governments, without reference to their political views.

WAR AS A BLESSING.

An anonymous article in the Social Economist, a periodical edited by Prof. George Gunton, sets forth some entertaining ideas on the subject of war as an economic blessing. "Throughout all history," says this author, "the nations which have fought most have flourished most." Even our civil war he holds to have been a blessing, since without it there could have been no return to a protective tariff, hence no general and rapid growth in manufactures, mining and chemical industries, without which the country would not have exceeded 55,000,000 of people.

Commenting upon this remarkable theory, the Chicago Times says: "Oh, the beautiful logic. Post hoc ergo propter hoc. Chicago burned down. Chicago is now a great city. Go, all ye lesser hamlets—ye Kansas Citys, Denver and Spokane—get yourselves cowed, kerene lamps and southwest winds and burn yourselves up, without which you cannot achieve 2,000,000 people. Sometimes, however, the author is more specific in his enumeration of the blessings of war. He finds, for example, that it results in rapidly increasing the birth rate, that wars cause more births than deaths, and he gravely rebukes the late Mr. Malthus for having failed to note that "wars, plagues and pestilences are followed by periods of sudden revival in procreation, which make up for lost time and lost numbers." The editor of the Social Economist deserves compliment upon his argument. He certainly merits appointment upon the staff of Gen. Miles.

DRIFTING TO THE CITIES.

The cityward drift of population, which has been observed in this country in recent years, is now strikingly noticeable in France. According to the census of April 12, 1891, the official returns of which have at length been made, the republic contained on that date 38,343,192. This was an increase of nearly 125,000 since the last preceding census was taken, five years before, and 25,000 a year is the slow rate of growth for so great a nation. But there was actually a considerable falling off of the rural population—more than 700,000 decrease in five years. The increase was in the towns and cities—Paris, Marseilles, Montpellier, Toulouse and Bordeaux, showing marked growth. Considerably more than one-third of the people of France today live in urban communities. In 1880 the proportion was less than 30 per cent. Five years later it was nearly 38 per cent. And, according to careful observers, the movement not only continues, but is steadily accelerated, so that by this time probably close to 40 per cent of the French people are town dwellers.

The best remedy for this condition of affairs is the establishment of co-operative rural colonies, where the best features of city and country life are combined. Southern California is an ideal section for such colonies.

Some of the thoughtless newspapers which are hastening to approve and commend the demagogical report of Mr. Cleveland's strike commissioners are preparing for themselves a bounteous repast of decomposed crow, which they will be forced to eat by and by. There are a great many men who cannot see farther than the ends of their noses, and not a few of them are permitted by providence, for some inscrutable reason, to edit so-called newspapers. Others are cowards and time-servers, who follow the wrong course merely because to pursue the right path requires courage and involves temporary risk.

Under the Constitution of the United States, Chinamen born in this country are entitled to vote after they have reached the proper age. A San Francisco paper estimates that within the next ten years there will be from two to three thousand such voters in that city alone. This estimate seems excessive, but there is no doubt that the

matter will present a serious problem for solution in the not distant future. No one who has knowledge of the Chinese character needs to be told that, with rare exceptions, the Chinese are unfit to exercise the privileges of the franchise. A large Chinese vote would mean a large purchasable vote, and would add another element of venality to our electoral system, which needs purification rather than further pollution. But perhaps it is useless to worry over this problem before it presses for solution.

The San Francisco Bulletin states the case in a few words and without circumlocution, thus:

"It is as certain as anything political can be that if Boss Burns had not forced himself into politics the Republican party would have carried the State by from 40,000 to 50,000 plurality. It is alive and his best friend, the cause of pure politics excited nothing but universal derision. The Republican party has always been more impatient of bosses than the Democrats. Constituted as it is, it cannot long endure the rule of ignorant political tricksters. It has been always restless and rebellious under every domination of this kind. It has been kicking bosses out of its path, from Gorham and Carr to Burns and Crimmins."

When the Republican party of this commonwealth has the strength and courage to rid itself entirely of the dictation of bosses, it will merit the unreserved confidence of the people—and not before.

No. 1 pig iron is quoted in London at \$11 per ton, and in various American cities at prices ranging from \$9 at Louisville to \$12.50 at New York, the average American price being \$11.07 per ton. The duty on imported pig iron is \$4 per ton, and freight charges are about \$2, making the total cost of English iron laid down in New York about \$17 per ton. If the free-trade theory were correct, the price of American iron would be the English price, plus the duty and the freight, or about \$17, instead of \$11.07 per ton. This is another proof of the falsity of the free-trade contention that the prices of domestic products are enhanced by the amount of duty levied on imported foreign products.

The Cleveland administration has been repudiated at the polls, and will scarcely have the hardihood to persist in the ruinous policy which has characterized its course thus far. But some possibilities of usefulness yet remain to this discredited administration. If it would promptly take up and pass the bill for the construction of the Nicaragua Canal, it might in some degree mitigate the disgust which the American people now feel for its incapacity and duplicity.

The result of the election as regards the nine constitutional amendments voted upon in this State is still unknown and will be determined only by the official count. The fate of these amendments is really of greater and more far-reaching importance to the people than is the question as to which of the candidates shall occupy the various offices. But we shall know all about it later on.

A Democratic organ says that "for two years the country groaned under Republican legislation while a Democratic Congress held sway at Washington." But the organ doesn't venture to tell us why the Democratic Congress failed, during the two years of its sway, to repeal the Republican legislation under which the country was groaning. Why didn't the Democratic Congress put the country out of its misery?

It will keep President Cleveland pretty busy during the next few months to find appointments for all the prominent Democratic statesmen who will be out of a job after the 4th of March next. There are Wilson, Springer, Bland, Holman, Cummings, Bynum, Tom Johnson, Bryan, Hatch, Enloe, and dozens of others. What can be done with them? They cannot be expected to go to work.

The Japanese government is reported to be greatly surprised at what it regards as the unfriendly attitude of the United States, as indicated by Secretary Gresham's acts and utterances. Our warlike friends would realize, if they understood the situation better, that Walter Q. Gresham falls considerably short of being the whole United States.

One Democrat in California, one fusiloon in Nebraska and one silverite in Nevada comprise the sum total of Congressmen not Republicans elected in all the region between the Missouri River and the Pacific Ocean—a region embracing twelve States. The cyclone swept things pretty clean on this side of the continent as well as on the other side.

There will be but one Democrat in the next Legislature of Michigan. His name is John Donovan, and he was elected to the house from a Bay City district. Mr. Donovan, as the sole survivor of the wreck of his party in the Wolverine State, will be the cynosure of curious, not to say of pathetic, interest.

The sweep in New York State is complete. There will not be enough Democrats in the next Legislature to fill the minority places on the committees. If the victors use the fruits of their victory wisely the State of New York will not go Democratic again for many years to come.

The government's expenses exceeded its income, during the two months following the passage of the Gorman-Wilson bill, by some \$21,000,000, or at the rate of \$120,000,000 per annum. Is "vicious Republican legislation" responsible for this result? The new

tariff was passed for the professed purpose of "equalizing" the revenue, and to counteract the effects of "vicious Republican legislation." How far has it accomplished these supposed results? Let the dwindling revenues and increasing deficits from month to month, make answer.

The Nebraska State Journal tells of a traveling man of that city who visited the State of Colorado during the week preceding election, returning with 120 orders in his book. In more than a majority of the cases a part of the goods were to be shipped at once, and the remainder of the orders were to be canceled in the event of the re-election of Gov. Waite. Fortunately, it will not now be necessary to cancel these orders.

Mr. Fitzgerald of the Ninth Massachusetts District is the only representative of the Democratic party elected to Congress from all New England. Mr. Fitzgerald will hardly know where he is at, in the midst of so much excellent company.

It is appalling to think what the results of the election might have been if the able Democratic editors and orators had not thrown themselves into the breach in an effort to stay the sweep of the Republican cyclone.

"Objector" Holman of Indiana has served fifteen terms in Congress. The people couldn't stand it any longer, and so they turned him down.

David B. Hill: "I am still a Democrat; but in the name of the great jumping ten-toed Jehosaphat, where am I at?"

Those obnoxious Reed rules will be enforced in the next House all right enough.

AT THE PLAYHOUSES.

LOS ANGELES THEATRE.—As is usual with the minstrel companies that for years have borne the names of "Haverly," the one that appeared at the Los Angeles Theatre last night gives a good show—a real old, simple minstrel show without frills, vaudeville specialties or anything other than the limitation dandy in all his uncouth glory.

In singers the company presents a galaxy of stars—Lester Silver, Albert Hawthorne, who is well known to Los Angeles, and whose voice is richer, deeper and mellower even than when he left us a year or two ago; Harry de Laine, with his musical notes and girlish lisp; Harry Potter, who sang "Answer," and for an encore "O Promise Me," with such splendid fervor; W. D. Brown, who recited a recall after Lester, and George Evans in his own composition, "Standing on the Corner," an eccentric character song that is musically and lyrically a degree. They were all in excellent voice, and Silver, Evans, Potter and Hawthorne as a quartette, were by long odds the best that has been heard here on the minstrel stage. The quartette sang "The Queen of the Mountains," and "The Girl of the Year," and many other songs, but many of them not so much so, yet the audience seemed to enjoy every one of them. The particularly funny fellows of the troupe are Burt Shepard, Harry Budworth, Alf Gibson and Harry Armstrong, and each of them "say such things and do such things" as to keep the audience in a good state of merriment. The quartette, ending with a sketch in which Constantine and Lyons appear as female impersonators, the former as a prima donna, and the latter as "Mile. Pieland," the queen of song.

There was a good house and it was one out to be amused; if applause is any criterion, it got the worth of its money. The quartette sang "The Girl of the Year," and the new comedians who have come to town this and tomorrow evenings and tomorrow afternoon—you can't afford to miss 'em.

SMILES.

(Truth.) Kennard. I wish I were a rumor. Lucie. Why not? Kennard. So that I might gain currency.

(Syracuse Post.) Howels. Is your wife so very remarkable? Dowels. Well, perhaps not in the way you mean. But she makes a good many remarks.

(Boston Transcript.) Mrs. Goodenyear. And yet you used to tell me that you loved me better than life! Mr. S. Yes; but I have since returned to the life I have led since marriage.

(Philadelphia Times.) Ethel (ambitious). What would you do if you had a voice like mine? Maud (spitefully). I'd try to put up with it.

(Washington Star.) "Do trouble 'bout rebolin," said Uncle Eben. "Am dat a man gin-rally shush us out ter tackle dis universe, an' wuh'k' roun' by degrees ter 'is pos'nal short-comin'?"

(Chicago Inter Ocean.) "Any letters for me this morning, Bridget?" The rapid response, "No, ma'am, but such writin' I couldn't make head nor tail of them an' tore them up to ease you the trouble."

(Washington Star.) "Hal! hal!" shouted the enthusiastic scientist. "I have discovered one thing in which the Chinese did not outstep the game. Men who can't do it!"

"Football. I can prove it by the way they wear their hair."

(Boston Transcript.) What a world of insincerity this is, exclaimed Pennick. "When I stopped that runaway horse all the papers said I deserved great credit. Here I've been in no less than twenty places trying to work my face for a drink!"

(Judge.) Lawyer. Well, sir, your suit has finally been decided in your favor and the property is now yours.

Client. Mine, eh? Lawyer. No, sir; yours. The fees of my self and associate are some \$200 in excess of the value of the property, but you can have that, sir; we will allow you that.

TOO MANY HUNTERS.

The Open Deer Season on Long Island Brings Trouble.

Associated Press (London)—New York. NEW YORK, Nov. 15.—The open deer season has developed into a season of trouble, the center of conflict being in the vicinity of Riverhead, L. I. One man is dead from being shot and someone has poisoned one of the best pack of hounds on Long Island, the one belonging to John Raynor. The deer are more plentiful than usual this year. So are the hunters.

At times, as many as ten men have fought over the carcass of a buck or doe, brought down by some lucky marksman. The deer are being shot by twenty years, estimate that there are 500 hunters on the ground.

Grace Vaughn, the former operatic singer, has been adjudged insane at Cleveland.

THE RAILROADS.

THE OIL-BURNING LOCOMOTIVE IS A SUCCESS.

Result of the Tests at Santa Paula.—The Union Pacific Reorganization.—Latest in the Atchison's Affairs.

The oil locomotive appears to be a success. At least the experimental stage has been passed, and it is now believed that it is only a question of time when petroleum will be the principal fuel on the rails of the California. The Santa Paula Chronicle of the 16th will contain the following, which will be of interest to railroad men everywhere:

"The Chronicle is most happy in being able to announce to its readers that the experiment recently made at Santa Paula and San Bernardino of changing a locomotive from a coal to an oil consumer, has resulted in a perfect success. It will be remembered that several weeks ago the Santa Fe Railroad Company sent an engine to the machine shops of the Santa Paula Hardware Company to be experimented on. It was accompanied by the master mechanic of the road and other expert machinists. Working with James Davis, foreman of our shops, for about two weeks they attained partial success. The locomotive was then run by oil to San Bernardino, where further improvements were made. Last week the final test was made, and Foreman James Davis of this place went down to San Bernardino to witness the trial. He remained three days. During that time the engine was put to the severest of tests. It was attached to great, heavy trains—as heavy as any engines are expected to move; it was required to climb steep grades and run at the rate of 20 miles an hour. It was equipped and the oil-burning engine was equal to the occasion. In short, the experiment is a grand success, and the question now is, when will the locomotives to be operated by the Santa Fe Railroad be changed to oil-burners. The Southern Pacific is also experimenting in this matter, and of course the result of their efforts will be the same as that of the Santa Fe. In due time there will be a demand for all the oil that can be extracted from the earth on this Coast. It may not be generally known that the oil used here comes mainly from Australia and oil at present prices will be cheaper for fuel on engines than coal. There are several 'oil fields' in California, but Santa Paula leads them all. Our daily output is about 800 barrels, but can be increased to almost any amount desired. The benefit to be derived by localities where oil is largely produced, when railroad begin using oil for fuel on engines, will be very great."

UNION PACIFIC REORGANIZATION. OMAHA (Neb.) Nov. 15.—An interesting feature of the proposed reorganization of the Union Pacific developed today in connection with the interviews with local railroad men had by Frederick Couderd, a member of the board of directors of that property, who passed through last night on route East after examining the system. Couderd expressed himself as being very much interested in the reorganization of the Union Pacific, and thought the differences existing between the Union Pacific, Denver and Gulf and the Union Pacific Company would be adjusted to the advantage of both companies.

Regarding the plan of reorganization of the Union Pacific as proposed by the government, Couderd stated he was heartily in sympathy and looked to Congress to do something at this session that would settle the ball rolling to a final settlement of the Union Pacific matter.

The directors as reflected in this report is to substitute a 3-per cent blanket mortgage for the present 6-per cent mortgage soon to become due. In other words, to pay the present 6-per cent mortgage by \$70,000,000, dated July 1, 1895, subject the entire railroad or railroads to a single mortgage, under which issue 3-per cent bonds to an amount such that the accruing interest will not exceed the minimum earning power, apply the money and securities in the sinking fund and pay off the mortgage as it matures, which have priority of lien over the lien of the government and so on until the stock of the company is all provided for under the new plan.

"Of course," said Couderd, "the government directors are well aware that no plan of reorganization can be carried out without the approval of a large majority of the holders of all classes of securities. There may be some difficulty experienced in substituting the 3-per cent for the 6-per cent bond at 100, as provided for in the proposed plan of securities, and in changing the collateral trust to 60 to 100, but with such exceptions I do not see why the plan submitted is not a good one. It is the judgment of the directors that no plan of reorganization can be carried out without the approval of a large majority of the holders of all classes of securities. There may be some difficulty experienced in substituting the 3-per cent for the 6-per cent bond at 100, as provided for in the proposed plan of securities, and in changing the collateral trust to 60 to 100, but with such exceptions I do not see why the plan submitted is not a good one. It is the judgment of the directors that no plan of reorganization can be carried out without the approval of a large majority of the holders of all classes of securities. DRAMATIC SCENES.

Second Day of the Craig Murder Trial.

George Hunter Appears as a Witness for the Prosecution.

The Eight-year-old Son of the Murderer Also Testifies Against His Father—Some Strong Evidence.

The trial of the Craig murder case was resumed before Judge Smith and a jury devoted to the introduction of evidence tending to show the intent of the defendant, prior to the commission of the offense, but during the afternoon session there were several features of interest.

The most dramatic scene of the trial was the examination of little Willie Craig, the 8-year-old son of the defendant, who not only witnessed the tragedy, but narrowly escaped death at the hands of his father.

George Hunter, whom Craig shot and left for dead upon the back porch of the Hunter ranch, also appeared as a witness for the prosecution, and exhibited his scarred and powder-marked face and neck to the jury.

The defendant evinced the same shrinking and cowardly demeanor which characterized him since the commission of the crime, and not even the sight of his own child testifying to his cold blooded murder of his wife, appeared to touch him.

MORNING SESSION.

The day's proceedings commenced with the examination of Miles A. Long, who was recalled for the purpose of testifying to a conversation had with Craig about three weeks prior to the murder.

Over the objection of the defense, the witness stated that while Craig and he were talking in the wood yard adjoining the defendant's premises, the defendant said that the Hunters had taken his wife away from him, and he did not propose to stand it much longer.

The witness was not allowed to state whether anything of a threatening nature was said by Craig, the court sustaining the objections of the defense to such testimony.

Long then testified to the effect that he was present when Craig was arrested, and practically had him in custody when the regular officers arrived. After identifying the pistols found in Craig's possession at that time, witness was asked what the defendant was doing with them, but this testimony was objected to vigorously by the defense's counsel, and after a sharp exchange between Messrs. Gage and Guthrie, the question was withdrawn.

B. Gense, an Italian bartender, was then called for the purpose of showing that he had loaned one of the pistols in evidence to Craig on the day of the murder, but was unable to identify the weapon positively on cross-examination.

Harvey Davis, a policeman, was the next witness. He testified to the effect that he had known Craig for six years, and saw him several times upon the date of the murder. He first met the defendant between Los Angeles street and the Plaza, and had a conversation with him, during which he told witness that was going out into the country for some people that night. Half an hour later Davis saw him driving north on Alameda street in a buggy, and later on he saw him again when under arrest.

Upon cross-examination Davis was closely questioned as to Craig's condition when he met him on foot at 5 o'clock that evening, and stated that although Craig looked as though he had been drinking, he could walk as well as witness could.

J. W. Guthrie testified pretty broadly that several men could do so when drunk; a remark which caused Mr. Gage to inquire whether the defendant's counsel spoke from experience.

J. W. Guthrie retorted sharply that he spoke from personal experience, whereupon an audible snicker escaped from the crowd, but Judge Smith promptly expressed his disapproval of such unseemly conduct.

Upon redirect examination the witness stated that while Craig did not stagger, he was a man who could drink a good deal without showing any effect. On this occasion, however, Davis was confident that Craig knew what he was about.

D. Gornell, another Italian bartender, whose knowledge of the English was very imperfect, testified through the medium of an interpreter to the effect that he loaned Craig a pistol, and identified one of the two exhibited as his.

Mrs. E. Snyder, daughter of Asa Hunter, was called for the purpose of showing that while his wife was in San Francisco with her parents and children, she had a conversation with Craig, during which the defendant said that something would happen to the Hunters before this thing was ended, and that if George or Jesse interfered when he went to see his children after they got back he would put holes into them.

A vigorous effort was made by the defendant's counsel to keep this evidence out, but the court allowed it to be introduced over their objections.

Jesse D. Hunter then took the stand and testified to the effect that on the date of the murder he met Craig, who was driving north in a buggy, about a half or three-fourths of a mile from the ranch, but did not turn back and follow him as his brother George was in charge of the ranch that night.

He was present at the ranch on another occasion, however, when Craig was out there with another man, and heard his mother tell the defendant that he had no right there, and that if he did not get into his buggy and drive off she would horsewhip him.

James J. Cronin, a carpenter, was the next witness. His testimony was to the effect that about 5:30 o'clock on the evening of July 25 last, as he was walking along Spring street, Craig drove up and asked him to hold his horse for a minute. He did so, while Craig went into a gun store and purchased some cartridges. When he came out again he offered to pay witness for holding his horse, but witness refused to accept either money, a drink, or a cigar. Craig then suggested that he take a ride with him, and witness got into the buggy. Upon learning that he lived at Fourth and Los Angeles streets, Craig put him down at the corner of Commercial and Main streets, remarking that he was going in the opposite direction for three or four other people, or he would give him a longer ride.

A recess was declared at this juncture until 2 o'clock p.m.

AFTERNOON SESSION.

Upon reconvening at that hour, Jesse D. Hunter was recalled for the purpose of showing that the relations existing between Craig and his wife just prior to the murder were not friendly, and that they quarreled and he had instituted proceedings for divorce.

F. Castrano, an Italian, residing at No. 423 Alpine street, related a conversation he had had with Craig two days prior to the murder, during the course of which the defendant said that he loved his wife and children, but Mrs. Craig and the old folks were down on him and doing all they could against him, and he would "do for them some of these nights if they did not let up."

A decided sensation was created when the prosecution called upon George Hunter as its next witness, and the fourth of Craig's victims took the stand, testifying that he stated beforehand that neither his

memory nor hearing were so good now as they had been before he was shot by his brother-in-law, and, consequently, Mr. Gage led him in easy stages through the recital of that part of the tragedy which he witnessed.

He testified to the effect that he did not see Craig when he drove up to the ranch, as he was in an outhouse at that time, but on emerging he saw the defendant standing about ten steps from the house. Witness immediately walked across and tried to get into the house by the north door, but finding it locked went round to that leading into the kitchen, and was admitted by his sister. He then went down the hall to the rack and got either his hat or coat, he could not recall which, and then went out again the same way. Just as he stepped on to the back porch he was shot, and remembered nothing more until some body placed a blanket over him and picked him up. He had no conversation with Craig at all before the shooting, but the defendant was muttering to himself as he walked up behind him from the outhouse.

In response to the direct question, "Who shot you?" the witness replied: "I suppose I don't know."

Some further questions were put to him regarding the effects of the wound he received, and the jury then inspected the scars and other scars on witness' face and neck.

Upon cross-examination witness was very closely questioned with the evident purpose of testing his recollection, but he stood the trial as a man of iron.

It was shown that the witness was not on good terms with Craig prior to the murder, but an effort was also made to show that he had firearms out at the ranch and was prepared for trouble with Craig, but fruitlessly.

While Craig, the eldest child of the defendant, was the next witness called, and the child, a handsome boy, 8 years of age, timidly advanced through the crowd and stood up before the jury and counsel.

The defense made a vigorous effort to keep his testimony out, and attempted to show that he was incompetent to become a witness on account of his tender years. At the suggestion of the jury, however, the court questioned the little fellow, who, when once his shyness wore off, proved to be a bright and unusually intelligent lad, and the objections were overruled.

He related the story of the tragedy in detail, corroborating that already told by the witness Albertina Jensen, and adding that after she had fired his father chased him into his uncle's room, and pointing a gun at him, said: "I'm going to begin on you."

At the close of the little fellow's testimony, the court adjourned for the day, and the case went over until 10 o'clock this morning.

THE GAY DOCTOR.

THE FESTIVE DRUMMER ARRIVES FROM THE EAST.

He was a Model Prisoner, and Gave Detective Bosqui no Trouble Whatever on the Trip.

Alexander Doctor, the drummer for Mose Gunst, the San Francisco cigar dealer, who appropriated \$2500 collected for Gunst, from M. L. Polanski, of this city, arrived here from New York on yesterday morning's Santa Fe train in charge of Detective Bosqui.

Since his flight the young man has been in Europe, where, especially in London and Paris, he has led a gay life, putting up at the swell resorts, throwing money at the birds, and dazling the foreigners generally. But in Paris he ran short of funds, so he packed his grip for New York. Here Chief Glass's descriptive circular proved his undoing, for he was taken into custody almost as soon as he stepped ashore from the steamer. Chief Glass was promptly notified and Detective Bosqui was immediately sent East to get the man.

Bosqui says he had the usual trip across the continent and had no trouble getting Doctor in New York.

On the return trip he stopped only once, at Chicago, coming from there direct to this city. His prisoner gave him no trouble at any time.

Doctor's natural brightness is still with him, but his London clothes are bedraggled from having been slept in many nights, and his air is somewhat dispirited. He is very quiet as to his troubles, and said much to say on other subjects, although he emphatically denies that any woman left here with him, or that there were any women in the case; and he says he does not think the newspapers have treated him fairly in publishing so many sensational and groundless stories in regard to him.

The news of the arrival spread rapidly yesterday, and several friends of the prisoner went to see him as he was eating his breakfast at a downtown restaurant. It is understood that he does not intend prosecuting the young man if he makes good the loss. Doctor is rather gloomy as to this point because he is unable to make up the cash himself, and through his father, residing at Milwaukee, is well off, he doubts if he will make good this shortage. Doctor was given a good education, but was naturally inclined to be wild and gradually drifted away from home. He is confined in the city prison.

NEW ELECTRIC ROAD.

A Boom in Lots Down Central Avenue.

The new double-track electric road which is now being built down Central avenue, and which, like the University line, will come in on Spring street, will cause property to double in value in six months. Fifteen lots have been sold in the last three days, and new houses started on all sides. In Grider & Dow's Adams-street tract. A personal examination will satisfy any buyer as to the merits of property down this street.

ELECTRIC OIL HEATERS.

There are no stoves on the market that approach these. They are the best made, the strongest heating, the most perfect working stoves of their class ever produced, giving the best and purest combustion it is possible to secure in a stove of this kind. The evaporation of the water in the reservoir, located within the burner, creates a mild and healthful atmosphere in the room. One wick will last a whole season. They are graceful and ornamental and are real stoves. See them at the W. C. Furry Store Co., Nos. 129 to 135 North Spring street.

FOR BEAUTY For comfort, for improvement of the complexion, use only Poudre's Powder; there is nothing equal to it.

J. T. Sheward,

113-115 N. Spring St.

It takes but a look to see the big inducements that are offered in the Cloak Department at the present time; an examination of the different stocks in the city is worth your while; you only buy one cloak in a year and some will buy only one in two years; for this reason it is money in your pocket to carefully study all the leading features in cloak buying; we are making a radical change in every department in the house; goods are being sold in many cases for less than cost; where the stocks are heavy the prices are reduced to even up stocks; at the present time the greatest bargains are being offered in the two largest departments, Dress Goods and Cloaks. We have real, genuine Cloaks and Dress Goods bargains. We wish we could definitely describe the Cloaks so that you could tell what the inducements are; how can we say more than our reputation for square dealing is at the back of the assertion that the bargains in the Cloak Room are the best we have ever offered. In some cases where the stocks are very heavy in certain styles the prices have been reduced to make the most rapid selling. We are going to sell every Cloak in this house before spring goods arrive; prices will be the leading feature; we have always enjoyed the reputation of carrying the best line of cloaks in the city and now at the prices they are being sold for this will increase; the prices in the Cloak Department are below legitimate profits, and this is being done solely to reduce the stocks by January 1 to place the Cloak Department on the same basis as other departments. You who have visited the Dress Goods Department will fully realize why it is we have so largely increased the sales in this department; the prices have been the principal cause; with the largest stocks of first-class desirable merchandise and the lowest prices have given the Dress Goods Department an unusual heavy business; when you consider you can buy Dress Goods for 50c a yard that sold last season for \$1 and Dress Goods for 75c a yard that is selling all over the city for \$1 to \$2 a yard today is it any wonder the Dress Goods trade is increasing? We have sold more than double than for the same period of last year; we have almost trebled the trade in the Dress Goods Department. Jersey ribbed Undewear for ladies 33c, real value 50c; Underwear 50c, real value 75c. Big bargains.

THE PUBLIC SERVICE

Charter Revision Again Considered by the Council.

The Proposed Amendments Finally Agreed Upon by that Body.

A Contract Ordered Drawn for the Translation of the Old Spanish Archives—At the Court-house.

The City Council further considered the question of charter revision yesterday and took such action on it as was understood to be its final approval. A contract was ordered drawn for the translation of the Spanish city records into English. The employment of an accountant to introduce a new system of keeping books in the various city offices was authorized. The Police Commission heard a number of business men on an appeal against permitting a saloon at No. 146 North Spring street.

At the Courthouse but little was doing except the Craig murder trial.

AT THE CITY HALL.

To Translate the Records. CITY COUNCIL TAKES ACTION ON THE SPANISH ARCHIVES.

The City Council met again yesterday afternoon pursuant to adjournment taken the day before.

A proposition was received from E. E. Bostwick, an expert accountant, to investigate the books of all the city offices, and put in operation a new system of accounts in accordance with the recommendation of the grand jury. He proposed to do this for a salary of \$150 per month, he to be employed for a period of three months.

The Finance Committee recommended that Mr. Bostwick be employed in accordance with the terms of the proposition, the compensation to be \$125 per month. The recommendation was adopted.

On motion the Street Superintendent was instructed to remove the bank of earth on the south side of Ocean View avenue at Burlington avenue.

A contract was ordered drawn between the city and Stephen Foster for the translation of the Spanish records of the city into the English language, the cost of the same not to be in excess of \$500.

Councilman Munson moved that two culverts be placed at Alvarado and Sixth streets. Referred to the Board of Public Works.

On motion of Councilman Pessell, the Street Superintendent was instructed to clear the gutters on Maple avenue, between Washington and Twenty-fourth streets, so as to permit the free passage of storm water, and also to notify the City Water Company to lay the trench on Maple avenue where a water pipe was recently laid.

THE CITY CHARTER. The City Attorney presented, as requested, a draft of one of the sections of the proposed revised city charter, fixing the time at which it is to go into effect.

The section as presented provides the charter shall go into effect immediately upon its approval by the Legislature. All officers, including the City Assessor and City Tax and License Collector, are to hold their offices until the expiration of their qualification of officers elected at the first general municipal election held under the new charter. Immediately upon its taking effect the Mayor shall appoint a Building Commission and a Water Commission.

The City Council may, however, arrange to have the city assessment and collection of city taxes, during the meantime made by the County Assessor and County Tax Collector respectively.

This section, as drafted by the City Attorney, was approved and the City Clerk was instructed to advertise for proposals for the publication of the proposed charter amendments, such proposals to be received up to 11 a. m. next Monday, after which the Council will take action on them.

Although it was stated that the action of the Council yesterday on the proposed amendments was understood to be final, yet it is said that nothing will prevent the making of further changes at next Monday's meeting. There has been, it is reported, a movement started to have the City Engineer appointed by the Mayor instead of by the Council, as proposed in the amendments in their present form.

Want the Permit Revoked. MERCHANTS PROTEST AGAINST THE MARKWALDER SALOON.

The Police Commission held a special meeting yesterday afternoon for the purpose of considering the question of the appeal of property owners and business men from the former action of the board in issuing a saloon license to Herman Markwalder, for the premises at No. 146 North Spring street. All four members of the Commission were present.

Maj. W. C. Purry stated it was believed the license had been granted under a misapprehension; that the consent of the representatives of two-thirds of the frontage represented had not been regularly presented, and that the personal matter, he said, but the men who presented the protest believed they were entitled to some consideration in the matter.

J. H. Braley said the business men in the locality were very much surprised when they learned the application for a saloon license at the place in question had been granted. In view of the facts of the case, he asked that the action taken by the board be reconsidered. He thought that in taking the action it had the board had not fully understood the sentiment of the business men in the neighborhood.

Walter S. Maxwell said that he had represented the Lanfranco estate for years. The place for which the saloon license had been granted had been vacant for months and, the license having been granted the day before yesterday, as well as the lease for the same had been delivered to the man to whom the license had been granted.

Victor Ponet started to speak against having a saloon at the place in question. He said that the signature of Mr. Lanfranco had been obtained when he was in a saloon and did not know what he was signing.

Mr. Maxwell objected sternly to Mr. Ponet's protest being considered. He said the character of the places owned by him would not warrant it. He (Ponet) was hardly the man to come before the board and preach morality.

Mr. Jerns said he believed it would be for the interest of the Lanfranco property as well as for all the other property in the block to have no saloon there.

Commissioner Arnold raised the point that some of the same men who had protested against this saloon signed their names to a petition not long ago for the revocation of a license to Mr. Kerkow for the place known as the Vienna Buffet. He thought it strange they should be in favor of one and not in favor of another.

"Yes," said the Mayor, referring to Mr. Kerkow, "there is a man running a Sunday saloon, and these business men asked to have his license given him again."

as others, are paying heavy rentals for their places, and they are intensely interested in keeping the neighborhood respectable. They may have to move out of that block if business keeps on degenerating, and no action would be an important part in degenerating it.

Commissioner Bostwick said that in voting in favor of the granting of the license he acted in good faith. The business men who had protested were certainly entitled to some consideration.

The meeting was adjourned till 10:30 o'clock this morning, for the purpose of ascertaining whether Mr. Markwalder can arrange not to open a saloon at the place proposed.

CITY HALL NOTES. The Board of Public Works will meet this morning.

Anthony Schwamm filed with the City Clerk yesterday a request that his name be not printed on the official ballot as Populist candidate for City Clerk.

Parties pending warrants on the City Treasurer for city teachers' salaries are requested to come to the secretary of the Board of Education, who will exchange them for warrants on the County Treasurer, from whom, under a recent judicial decision, they are now payable.

AT THE COURTHOUSE.

The Courts. DATE OF TRAIN ROBBERS' EXAMINATION FIXED.

"Kid" Thompson and "Tom" Tupper were taken before Justice Bartholomew yesterday afternoon for arraignment, the former upon the charge of having committed the Roscoe train robbery of February 17 last, and the latter with being an accessory after the fact. Thompson's examination was set by consent for Wednesday morning next, but the court sustaining the demurrer interposed by counsel for Tupper to the complaint filed against him, the latter was committed until a new complaint can be filed.

Court Notes. Kate Flynn, a native of Ireland, 40 years of age, who has been under treatment at the County Hospital for the past three months, was duly adjudged insane and committed to the State asylum at Highlands by Judge Van Dyke yesterday in accordance with the recommendation of Drs. Ainsworth and Wernick, the examining physicians. The woman's malady is due to alcoholism and exposure.

Judge Shaw was again occupied all day in hearing the testimony in the case of J. J. Charnock vs. J. Higuera et al. on Wednesday morning next, but the court sustaining the demurrer interposed by counsel for Tupper to the complaint filed against him, the latter was committed until a new complaint can be filed.

In Department Six the trial of the damage suit instituted against the Los Angeles Terminal Railway Company by Miss Lillie E. Blitch et al., of Alamitos Beach was concluded, the verdict being submitted to the jury at 5:15 o'clock.

The order of submission of the defendant's motion for judgment upon the report of the referee in the case of Joshua Andrews vs. S. M. Elliott, an action for an accounting, was vacated by Judge York yesterday, and the defendants granted five days within which to reply to plaintiff's objections to said report.

The trial of the case of Miss L. J. Hammond vs. Louis Zimmerman et al., an action in ejectment, was resumed before Judge York and a jury in Department Three yesterday, but after occupying their undivided attention all day, the matter was over until this morning.

Clarence Holst, a tiny baby 6 weeks old, was formally adopted by its grandfather, George H. Baisley, in Department Four yesterday morning.

Upon motion of the District Attorney, Judge Smith dismissed the cases against D. M. McDonnell and D. W. Hudson, the evidence in the hands of the prosecution being insufficient to warrant their conviction.

Among the documents filed with the County Clerk yesterday were the preliminary papers in the following new cases:

Andrew Glazell vs. George A. Stevens et al., action to foreclose a mortgage for \$250, on 150 acres of land in section 12, township 3 north, range 8 west.

Frank Wilson vs. August Weiffenbach; action to recover \$500, the amount of a check upon the National Bank of California, payment of which was refused when presented.

H. R. Stevens et al. vs. Baby Mountain Land and Water Company et al., action to foreclose a mechanic's lien for \$386.45.

J. Downey Harvey, administrator, vs. J. Markon Brooks, action in ejectment to recover possession of room No. 45 in the Downey Block, for rent and damages.

THE WRECKED CROWN.

The Steamer Will be a Complete Loss.

SANTA BARBARA, Nov. 15.—(Special Correspondence.) The tug Fearless, Capt. Haskell, arrived in port at a little after 9 o'clock Tuesday night from Santa Rosa Island, bringing the full account of the wreck of the steamer Crown of England. The ship is a total wreck. She lies broadside against the shore and her bottom is exposed. The wreck is about 200 feet from the shore. Capt. Haskell visited her yesterday, about 3 o'clock, the tide was so low that he could put a plank from the shore to the stern of the ship, and walk aboard. She lies in a dangerous position, near the southeast corner of the island, where, at this time of the year, a heavy sea is running almost constantly from the southwest or southeast. It will take a very short time to break the vessel in pieces.

Capt. Haskell found the second mate and third assistant engineer in charge of the wrecked ship, and five seamen camped on the island. The tug Warrior had ready heat and taken off the remainder of the crew. Capt. Haskell said that had the steamer kept off shore fifty feet further she would have missed the rocks altogether. When she struck she was running at the rate of four knots per hour. It seems strange that the wrecked seamen were unable to find the ranch home on the island, where there are large numbers of cattle and sheep on all parts of it and also fences and trails all over it.

Maguin of the burned wrecking scow San Pedro was on board the Fearless. He visited the wreck of the scow on the way down and reports that only the tops of the masts are visible. She sank about 200 feet from the wreck of the Goford.

Licensed to Wed.

Marriage licenses were issued at the County Clerk's office yesterday to the following persons:

John L. Thompson, a native of Michigan, 28 years of age, to Sarah E. Tabb, a native of Illinois, 22 years of age; both of this city.

Robert D. C. Taylor, a native of California, 20 years of age, to Myrtle Mundell, a native of Ohio, 19 years of age; both of this city.

VALUABLE MAPS.

THE WORK OF THE GEOLOGICAL SURVEY.

Information About the Country Being Put in Shape for Practical Use—What is to be Shown.

The United States Geological Survey has had several parties at work in the vicinity of Los Angeles for some months past, and from an interview with Richard U. Goode, who has charge of the topographic work in California, Oregon, Washington and Idaho, the following facts have been learned:

Charles D. Wolcott, who was appointed by the President last May to succeed Maj. Powell as director of the Geological Survey, has taken charge of the affairs of the bureau in a business-like way, and has plainly indicated his intention of conducting its operations so that practical and useful results may be obtained, and in no section, judging from inquiries constantly being made, are these results more anxiously awaited by mining men and engineers, especially those engaged in irrigation enterprises, than in Southern California, and in fact, no section has been more favored in the distribution of the working parties than the region tributary to Los Angeles, there being at present three parties in the field, one under L. C. Fieseler, another under R. C. McKinney, and a third under W. S. Post.

The area under investigation and which will be mapped in sheets, each sheet constituting one-sixteenth of a square degree of latitude and longitude, or an area of about 250 square miles, and perhaps a better idea than that given above as to the locality of the work may be had from the names by which the various sheets will be designated when published, the names usually being taken from the most prominent places within their respective limits. Thus there will be published and available for distribution within the next year a series of field notes and reports now being carried on, eleven sheets as follows: Los Angeles, Pasadena, Azusa, Cucamonga, San Bernardino, Redlands, Redondo, Downey, Anaheim and Santa Ana.

These topographical sheets or maps in their completed state contain a large amount of information. In the first place all inhabited places and public roads are shown, and consequently the plans of the various cities and towns, they being an aggregation of houses and roadways, and also waterways, drainage, canals, railroads, etc. Then in addition by a system of contours or lines of equal elevation are indicated the shape and extent of the plains, valleys, hills and mountains, and the elevation above sea-level within certain limits of all places within the area covered. From an intelligent study of these contours in connection with other features shown on the maps, much light can be thrown upon a great variety of engineering problems and a practical solution of many of them reached.

Thus the fall in feet per mile of a stream may be obtained, the catchment or drainage area of the same stream may be computed, probable reservoir sites may be located, and the possibilities of the distribution of the water from a reservoir planned for any locality may be estimated, and preliminary locations for proposed railroads or canals may be laid down.

So much for the topographical maps which have an important and intrinsic value of their own as above indicated, but which are especially useful and, in fact, absolutely indispensable in connection with the study and illustration of the geological features of any locality.

When completed, therefore, they are put in the hands of trained geologists, who go carefully over the ground covered and, as a result of their investigations, three distinct geological sheets are prepared which, together with the topographic sheet, and a sheet of descriptive text are published in a folio.

The descriptive text is entirely free from technicalities and makes plain by figures and diagrams what is to follow, so that any one with average intelligence can understand the nature and extent of the work to be done, and the results to be achieved. The topographic sheet shows the surface configuration, the first of the geological sheets will indicate the character of the rocks seen above ground, including all deposits from the most ancient to the most recent, the second will delineate the geological structure and will be illustrated by sections which will show the relation of the rocks to each other, their dip or inclination downward from the surface, their curvatures and dislocations, and the third geological sheet will be placed information which may have special economic value, such as the location of building materials, the direction, thickness and extent of ores, coal seams, oil wells, and even other useful minerals, and to a certain extent, the nature and distribution of the soils.

In addition to the above, other investigations will be carried on in this locality under the direction of Arthur P. Davis, relative to the water supply, both surface and underground, and eventually it is hoped, that a very accurate estimate of the available amount of water in any locality for any special purpose may be obtained.

Thus it is seen that the work of the Geological Survey covers a wide field and there can be no question about its practical utility as it collects and puts in intelligible form information which is absolutely necessary to have in regard to any country before that country can be proven to have been brought to its highest development.

THE OFFICIAL CANVASS.

More Changes Made in the Election Returns.

The Board of Supervisors worked all day yesterday on the returns from Los Angeles City precincts in their canvass of the County vote. About the same percentage of errors found on previous days, were discovered and corrected, the changes made being as follows:

Precinct No. 4—Representative in Congress: McLaughlin, (Rep.) 157; should be 137. Board of Equalization: Nickell, (Dem.) 137; should be 139. Railroad Commissioner: Clark, (Rep.) 124; should be 125.

Precinct No. 5—Board of Equalization: Nickell, (Dem.) 128; should be 129. County Surveyor: Street, (Pop-Dem.) 49; should be 160.

Precinct No. 9—Supreme Justice: Daggett, (Pop.) 45; should be 46. Representative in Congress: McLaughlin, (Rep.) 157; should be 177. Webster, (Pop.) 64; should be 54. Secretary of State: Maddox, (Dem.) 140; should be 144. Clerk Supreme Court: Landborough, (Pop.) 2; should be 62. Supreme Justice: Temple, (Dem.) 124; should be 124. Murphy, (Dem.) 184; should be 134. Board of Equalization: Nickell, (Dem.) 154; should be 151. Superior Justice: York, (Rep.) 58; should be 53. County Clerk: Messmore, (Dem.) 192; should be 112. State Senator: Moore, (Dem-Pop.) 158; should be 181.

Precinct No. 11—Clerk Supreme Court: McGlade, (Dem.) 9; should be 99. Superintendent State Printing: Johnson, (Rep.) 82; should be 82. Superior Justice: Bridgford, (Dem.) 95; should be 109. Board of Equalization: Hamilton, (Pop.) 64; should be 54. District Attorney: Donnell, (Rep.) 14; should be 84. County Treasurer: Haines, (Pop-Dem.) 142; should be 143. State Senator: Moore, (Dem.) 158; should be 169.

Precinct No. 12—Superintendent Public Instruction: Richardson, (Pop.) 55; should be 56. Representative in Congress: McLaughlin, (Rep.) 157; should be 137.

Precinct No. 13—Secretary of State: Maddox, (Dem.) 140; should be 144. Clerk Supreme Court: Landborough, (Pop.) 2; should be 62. Supreme Justice: Temple, (Dem.) 124; should be 124. Murphy, (Dem.) 184; should be 134. Board of Equalization: Nickell, (Dem.) 154; should be 151. Superior Justice: York, (Rep.) 58; should be 53. County Clerk: Messmore, (Dem.) 192; should be 112. State Senator: Moore, (Dem-Pop.) 158; should be 181.

Precinct No. 14—Governor: French, (Pro.) 17; should be 12. District Attorney: Donnell, (Rep.) 144; should be 146. Precinct No. 15—Lieutenant Governor: Millard, (Rep.) 13; should be 153. Secretary of State: Brown, (Rep.) 145; should be 153. State Treasurer: Radcliffe, (Rep.) 146; should be 147. Coroner: Choate, (Dem-Pop.) 109; should be 105. County Treasurer: Harris, (Pop-Dem.) 128; should be 139. County Surveyor: Wright, (Rep.) 143; should be 149. Township Justice: Young, (Rep.) 183; should be 154.

Precinct No. 18—Lieutenant Governor: Jeter, (Dem.) 84; should be 79. Supreme Justice: Buck, (Pop.) 63; should be 43. Superior Justice: York, (Rep.) 58; should be 137. County Surveyor: Wright, (Rep.) 155; should be 153.

No further indication of a contest being raised as to the Soldiers' Home vote. Governor and Coroner was manifest yesterday in the course of the proceedings before the Supervisors, and it is now understood that no such a contest will be made.

EXCITEMENT

UNPRECEDENTED.

Los Angeles Theater the Scene of the Most Startling Cures.

Daily Demonstrations in Healing the Sick by the Boy Phenomenon.

The Los Angeles Theater has been crowded the past week with the sick and suffering, all intent on receiving treatment and being restored to health and happiness through the wonderful instrumentality of animal magnetism in the hands of the Boy Phenomenon.

The most wonderful cures ever accomplished in this or any other country have been made, and are daily being performed on the stage at the Los Angeles Theater from 10 to 11 a. m., absolutely free to every one in need of his God-given power.

In order that all, both the rich and the poor, may receive the benefit of his marvelous curative power to heal the sick, Dr. Temple has engaged Los Angeles Theater for every day this week from 10 to 11 a. m., where he will treat the crippled, rheumatic, paralytic, deaf and blind, without money and without price.

Dr. Temple not only treats the blind, lame and crippled, but all diseases quickly yield to his strange power. Catarrh, incipient consumption, chronic bronchitis, chronic diarrhoea, neuritis, nervous diabetes, Bright's disease, epilepsy or fits, tumours in all conditions, diseases of a delicate nature, diseased bone, hip disease, deafness, heart disease, bladder disorders, hemorrhoids or piles, chronic rheumatism, obstinate constipation, disorders of women, catarrh of eye, cancer, scalding, distula, liver complaint, kidney troubles, acrofula, gravel, throat disorders, impotency, and in fact all diseases yield to animal magnetism in the hands of this wonderful boy physician.

All those who are able and willing to pay for treatment may come to his private residence at the Hollenbeck Hotel, rooms 22, 23, 24, 25, 26, 27, 28 and 29, from 10 a. m. to 4 p. m. until December 1, for consultation, examination and advice free.

All examinations are made without questions and every ache and pain described. Far better than the patients can themselves. Those desiring free treatment must not come to the theater. They must go to the Los Angeles Theater at 10 o'clock this morning, where they will be admitted free and treated free in full view of the audience.

Tonight at Pasadena.

Besides the free daily demonstrations at the Los Angeles Theater during this week, in response to many urgent requests from prominent people of Pasadena, the management has arranged for a free demonstration at Pasadena, November 17, on this occasion those who are unable to pay for treatment will be treated absolutely free, and every one will be admitted and given seats free of charge.

McLaughlin, (Rep.) 81; should be 82. Coroner: Campbell, (Rep.) 77; should be 78. County Surveyor: Street, (Pop-Dem.) 151; should be 152.

Precinct No. 13—Secretary of State: Maddox, (Dem.) 156; should be 147. Superintendent Public Instruction: Smyth, (Dem.) 130; should be 131. Representative in Congress: Bowman, (Pop.) 55; should be 56. Railroad Commissioner: Phillips, (Dem.) 142; should be 143. Township Justice: Young, (Rep.) 49; should be 160.

Precinct No. 16—Governor: French, (Pro.) 17; should be 12. District Attorney: Donnell, (Rep.) 144; should be 146. Precinct No. 15—Lieutenant Governor: Millard, (Rep.) 13; should be 153. Secretary of State: Brown, (Rep.) 145; should be 153. State Treasurer: Radcliffe, (Rep.) 146; should be 147. Coroner: Choate, (Dem-Pop.) 109; should be 105. County Treasurer: Harris, (Pop-Dem.) 128; should be 139. County Surveyor: Wright, (Rep.) 143; should be 149. Township Justice: Young, (Rep.) 183; should be 154.

Precinct No. 18—Lieutenant Governor: Jeter, (Dem.) 84; should be 79. Supreme Justice: Buck, (Pop.) 63; should be 43. Superior Justice: York, (Rep.) 58; should be 137. County Surveyor: Wright, (Rep.) 155; should be 153.

No further indication of a contest being raised as to the Soldiers' Home vote. Governor and Coroner was manifest yesterday in the course of the proceedings before the Supervisors, and it is now understood that no such a contest will be made.

When Baby was sick, we gave her Castoria. When she was a Child, she cried for Castoria. When she became Miss, she clung to Castoria. When she had Children, she gave them Castoria.

DEATH RECORD.

BOYSE—Emily Elizabeth (Wife), aged 35, died at 10:15 a. m. Nov. 15, 1894, of typhoid fever. Burial at 2 p. m. at the Soldiers' Home. Friends and acquaintances invited to attend.

Elegant Funeral Parlors.

The parlors of C. D. HOWRY, leading Funeral Director, Fifth and Broadway, are equipped with the latest and most complete facilities for the care of the dead. His prices are the lowest in the city.

E. L. DOHENY, Manager.

J. A. CONNOR, Supt.

Doheny Oil Co. Fuel Oil.

In any quantity at market prices. Satisfaction guaranteed. Our oil contains no Benzene, naphtha or other dangerous explosives. We furnish—Hater Zobein Brewery, Los Angeles Cold Storage Co., Cudahy Packing Co., and many other consumers, to whom we refer. Can be burned with any style of burner.

Telephone 1472. Wells and office, Cor. Douglas and West State Streets.

Union Iron Works, SAN FRANCISCO, Ship and Engine Builders, Electrical Machinery, Mining Machinery, Boilers, Tanks, Etc.

MISS M. A. JORDAN

Has not gone out of business and cordially invites the ladies of Los Angeles and Southern California to favor her with their patronage.

George E. Franklin, Observer.
Lives of many men remind us. We to great success can climb. If the reading public find us. Advertising all the time.

A SHORT FELLOW.
The Los Angeles W.C.T.U. will have a meeting in the interest of the Ransom Home (this Friday) afternoon at 2:30 o'clock, in the First Congregational Church, corner Sixth and Hill streets. Mrs. Harriet Armstrong will tell her experience of eight years of rescue work in the courts of New York and Brooklyn. All are cordially invited, and requested to bring one pound or more of some article as a contribution to the home. Good music will be provided.

We are receiving the finest stock of shoes for our new store ever manufactured. All the latest modish styles, and as well as the regular lines in the square and common-sense lasts. For winter we have the felt shoes at \$1.50. They will keep your feet dry and warm. Tyler Shoe Company, Bryson Block.

The office of the Florence Home for Boring Girls has been removed from Temperance Temple to No. 332 1/2 Clay street. (Clay street is between Third and Fourth and Hill and Olive.) Any girl purposing to lead a new life will receive a loving welcome and kind care.

Ladies who care to see the very latest and nicest styles in shoes are advised to take a look at the new French heels and Southern toes just received at William Gibson's, No. 442 and 144 North Spring street. They sell at \$5.

Special sale, four-button, imperial kid gloves, worth \$2, for \$1.50; five-hook empress glove, worth \$1.35, for \$1; on sale Friday and Saturday only. Quinlan's lace and glove store, No. 329 South Spring street.

The only place in California where you can get pure aluminum ware and nothing else is at Baker's Aluminum Store, No. 222 South Broadway.

Fifty cents round trip on Terminal Railway to Long Beach and San Pedro. Good going Saturday and Sunday, returning Monday.

Kregolo & Brees, funeral directors, corner Sixth and Broadway. Open day and night. Lady attendant. Tel. No. 243.

A Special-Finest enameled cabinet photos, reduced to \$1 per dozen. Sunbeam Art Parlors, No. 238 South Main street.

For rent, two very nice houses, furnished, in good locality. McKoon & Younkin, No. 231 West First street.

Visit the Arrowhead Hot Springs, the finest mountain resort on the Coast. See notice under hotels.

Burns Le Baron, M. D., office rooms No. 226 to 229 Broadway Block; hours, 9-11, 12-2, 7-8.

Sanitary oil heaters; entirely new. Naurer & Cass Hardware Co., 326 S. Spring.

Mantels, tiles, office fittings, hardwood lumber. H. Bohrmann, No. 614 South Spring.

A large, well-lighted front room on the third floor of Times Building for rent.

For the latest novelties in shoes the Tyler Shoe Company is in the lead.

Powerful meetings: First Baptist Church; Evangelist Pratt.

Mexican Leather Carver, Campbell's Curio Store.

Men's patent calf button shoes, Barden's. Eastern chestnuts at Althouse Bros. C.A.W. bicycle shoes, \$3. Barden.

The Democrats are making preparations for a rally to be held at Music Hall, on Spring street, Saturday evening.

A baby boy, weighing nine pounds, was the arrival at the home of Mr. and Mrs. W. Lichtenhaler, Wednesday evening.

There are undelivered telegrams at the Western Union office for J. A. Brown, Evening News, E. E. Lane, Mrs. E. Pond, M. H. Craper.

Charles F. Lummis is happy over a son, who put in an appearance last evening.

Lummis, Jr., tips the scales at nine pounds. Mother and child doing well.

C. B. Woodhead of No. 853 Buena Vista street, en route to his Little Lake ranch near Santa Fe Springs, Wednesday, was thrown from his buggy and had both bones of his left ankle broken.

Constable J. J. Arbolis and Deputy Sheriff Pourade of San Bernardino are in the city, looking up testimony against Tom Salter, the fender now in jail in that city charged with attempting to poison the man Barnes.

A station owned by J. W. Cox, on exhibition at No. 205 West Third street, is a wonder, having a very long mane and tail. The animal is a handsome chestnut, the tail being a beautiful silver blue and about six feet in length. The mane is nearly five feet long.

The last of the week of prayer series at the Young Men's Christian Association occurs this evening. John L. Spears has the meeting in charge and will speak to young men. A pleasant musical programme each evening is furnished by the Young Men's Bros. All young men invited to attend this closing service.

The juries in the cases of the United States vs. M. Erreca and Bernard Carichara found verdicts of not guilty in the District Court yesterday, and the defendants were discharged from custody. The men were accused of having allowed their sheep to roam about on the government forest reservation in San Bernardino county.

The Executive Committee of the Democratic County Central Committee will meet at 10 a.m. tomorrow in the office of Judge A. M. Stephens, for the purpose of considering applications for positions as postmasters in the various offices of the county. After consideration it is expected recommendations will be forwarded to Washington.

A Foundered Ship.
LONDON, Nov. 15.—The British ship Culmore, Captain Rhode, foundered sixty miles off Spurnhead County, York, yesterday. Twenty persons drowned. The Culmore registered 189 tons. She hailed from Londonderry and was owned by Thomas Dicks & Co.

COUPON.
This will entitle the bearer to one copy of "The Jewels of Song," upon presentation at our office, and the payment of 25 cents; 100 pages of the most popular songs, with music. **TIME TICKETS.**
Times Bldg., First and Broadway.

Highest of all in Leavening Power.—Latest U. S. Gov't Report

Royal Baking Powder

ABSOLUTELY PURE

IN SOCIAL SPHERES.

Master Howard A. Edwards entertained his little friends, Wednesday evening, in honor of his 6th birthday, at the residence of his parents, No. 218 West Seventh street. Those present were: Ethel Trees, Jessie Lunn, Maud Adams, Mamie Hubbard, Jessie Kang, Ida Jones, Gertrude Edwards, Frances Neer, Rosy Longshore, Charles Tipps, George Yard, Harry McIntosh.

Stuart Taylor has left for Riverside to superintend the production of "Pinafore," which is to be given by his pupils of that city. Quite a number of people from Los Angeles and Pasadena went to witness the performance.

Mrs. Eva Wren, of Oakland, has come to this city to locate. She has a reputation as a vocalist of high order, and was well known in musical circles of Oakland and San Francisco.

Miss Sadie Blair of Chicago, is visiting friends in this city. Fully a hundred persons visited the galleries of the Art Association yesterday. The exhibit will remain open to the public for a short time without charge.

Judge Union and family have returned from a month's outing at Long Beach. There will be a reception and musicale this evening at the residence of Mrs. Braden W. Lee, No. 1105 South Hope street, from 3 to 5 and 8 to 11 p.m., for the benefit of the First Presbyterian Church.

Mrs. Lee will be assisted by Mrs. Burt Eates Howard, Mrs. J. S. Slauson, Mrs. J. W. McKinley, Mrs. J. W. Cochran, Mrs. Winifred R. Hunt, Mrs. J. M. Witmer, Mrs. J. P. Hunt, Mrs. J. F. H. Peck, Mrs. Elliot and Mrs. McKee.

A Spanish tertulia will be given this evening at the residence of Mrs. Frances E. Garney, No. 716 Twenty-eighth street, where Mrs. Phipps' classes in this city and Alhambra, and some leading Spanish-American residents will meet. The language of Cervantes will be used exclusively and Spanish games, anecdotes and music will be features of the evening.

PERSONALS.

L. Emerson and wife of Cincinnati, O., are in the city.

William S. Babcock, Jr., and family of New York are in the city.

C. C. Youm of St. Louis, Mo., is registered at the Westminster.

E. P. Sanderson and wife of San Francisco are at the Nadeau.

George W. Kingsbury and wife of San Francisco are in the city.

F. P. Sheehan and family of San Francisco are at the Westminster.

H. F. Bullen and A. H. Jessie of Chicago are stopping at the Nadeau.

B. B. Wood and wife of Santa Anita are registered at the Hollenbeck.

Mr. and Mrs. Charles H. Jacobs of Detroit, Mich., are among the Westminster guests.

H. K. Smith and wife of San Jacinto are among the arrivals registered at the Nadeau.

W. S. Covey and wife of Portland, Me., are among the Eastern arrivals at the Hollenbeck.

E. H. Bridenbach of St. Louis is registered at the Nadeau. Mr. Bridenbach is engaged in the hardware lumber business.

Varney Gaskell, a business man of San Francisco, is in the city. Mr. Gaskell was formerly deputy collector of customs for San Francisco.

F. C. Millman and daughter of New Orleans have apartments at the Nadeau. Mr. Millman is interested in a number of large river transportation boats.

Anxious to Get Out of Jail.
Matthew Ries, the escaped convict captured by Detective Goodman, is making desperate efforts to get out of jail, but he will certainly remain there until the Sheriff of Kings County, Wash., takes him out on extradition papers.

The first attempt, on a writ of habeas corpus, was fruitless, and yesterday he appeared before Justice Seaman demanding trial or immediate release. But as it was plainly proven before that Ries is a fugitive from justice, His Honor postponed the trial until November 17, at 10 a. m., by which time the officer from Seattle will have arrived.

ON SPECIAL SALE AT WINEBURGH'S.

Wineburgh's, No. 209 South Spring street.

The new vegetable shortening is the most popular food product of the day. Its use means good food, good health and a goodly saving in the end. Since the introduction of Cottolene, lard has no longer place in food or kitchen.

Cottolene
serves every purpose of lard, and serves it without grease, odor or indigestion. Those who have given Cottolene a fair trial never go back to lard. Be sure and get the genuine. Don't let any dealer palm off any of the many worthless imitations on you.

Sold in 5 and 10 pound pails by all grocers.

The N. K. Fairbank Company,
ST. LOUIS and
Chicago, New York
Boston.

Chamber of Commerce Notes.

Among the fresh exhibits received at the Chamber of Commerce yesterday were Ben Davis apples weighing sixteen ounces each; Baldwin and Yellow Bellflower apples grown by James Olds of Keene, near Tehachapi. For size and flavor they surpass any exhibit in the hall.

Henry W. Carter makes a display of three varieties of apples from Antelope Valley. I. H. Cammack of Whittier contributes egg plant weighing five pounds and sample of ripe olives.

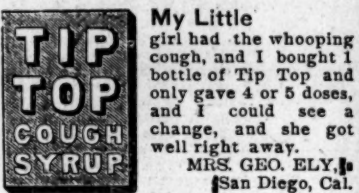

W. R. Condit sends in samples of Catalina cherries that very much resemble Damson plums. H. C. Draves shows a fine collection of squashes.

The Horticultural Society of Southern California will meet in the Assembly room Saturday, November 19, at 10:30 o'clock.

Serenaded Successful Candidates.
A gathering of the neighbors and friends of S. G. Milford, Lieutenant-Governor-elect, and R. N. Buila, Assemblyman-elect, serenaded Mr. Milford and Mr. Buila at their respective residences on Iowa street and Temple street, last night. Suitable words had been adapted to popular tunes, and these were sung. There were quite a number of Angelinos, mostly people, who participated in the pleasant affair. Afterward the party visited the residences of Oakland Wood of the County Central Committee, and Messrs. Field and Merwin, Supervisor-elect and Tax Collector-elect, where courtesies were exchanged.

My Little
girl had the whooping cough, and I bought 1 bottle of Tip Top and only gave 4 or 5 doses, and I could see a change, and she got well right away.
